

“All You See Is Light”

# smedmarks

Volume I, Issue 1

January 2008

Welcome to the premiere issue of our newsletter! We are excited to send you product and company updates to assist you in meeting your lighting design needs. Bringing quality luminaires that meet design needs to the architectural market is a core Smedmarks philosophy; quality in design and performance, quality in workmanship, and quality in service. “All you see is light”, so make it quality light with Smedmarks Inc. luminaires!

Each future issue will highlight one of our luminaires and inform you of the latest news here at Smedmarks Inc. We hope you find the information useful, and we look forward to working with you!

Smedmarks Inc. manufactures T2 and T5 extruded luminaires. Our minimalist approach combined with clever design results in a flexible and unique product line, capable of both task and area lighting, indoor and outdoor.

We want to take this opportunity of our inaugural issue to thank all of you for your support and interest in our product line. We would also like to make the following announcements:

- Tired of dealing with a Swedish web site? Good news! The Smedmarks Inc. web site will soon be up and running. Bear with us as we get it functional now, and then make steady improvements over the next couple of months. Place it in your Favorites list and check back often! [www.smedmarksinc.com](http://www.smedmarksinc.com)
- We will exhibit at **Lightfair 2008** in Las Vegas from 28-30 May. Please visit us in the design pavilion at **booth # 177** to say “hello” and see our latest luminaires and our entire product line. We are looking forward to seeing you!
- You received this newsletter because we have met you or a colleague over the years at Lightfair, through one of our sales representatives, or through other similar venues. To remove yourself, add a colleague, make comments, or request a catalog, please e-mail us at: [info@smedmarksinc.com](mailto:info@smedmarksinc.com). Thank you!
